Campus connect is a application that connect all department of the college through a single application that makes campus activites easier. This application has 6 interfaces for admin,principal,hod,teachers and students,parents. first of all the college Want to be register with required document mentioned in the application .The document subimitted by college is verified by the admin and give unique number.Using the number the principal want to register in this application.After registration the principle want to create a code and this code is used for registration of hod and teachers. For registering they want to select the name,positon and department in the college and code created by principal must enter in the registration section for regitration of student and parent. They want to enter college name,rollnumber,department and year .This application helps Principle to send notice,information about meeting,function ,acitivies to hod and for teacher.The hod can send this notice to Students and for parents, and send information to students .Also the student can register complaint to Hod through this application Hod can view the complaint ,verify the complaint and forward this complaint to the principal to take action. In teachers interface they can mark attendance of the student,make reminder about class test,events etc.. And also uplod the c mark of the students.In this application students can register complaint to hod ,view attendance and c mark.For parents they view events Information like PTA meeting .
